QUALITY-TRAVEL-EXPERTISE

DEFINICE UDRŽITELNÉHO ROZVOJE:

zajistí potřeby současných generací, aniž by bylo ohroženo splnění potřeb generací příštích, a aniž by se tak dělo na úkor jiných národů. (1987, Komise OSN pro živ. prostředí)

DEFINICE UDRŽITELNÉHO CEST. RUCHU:

"Sustainable tourism development guidelines and management practices are applicable to all forms of tourism in all types of destinations, including mass tourism and the various niche tourism segments. Sustainability principles refer to the **environmental**, **economic** and **socio-cultural aspects** of tourism development, and a suitable balance must be established between these three dimensions to guarantee its long-term sustainability." (UNWTO)

ABOUT MISSION CALENDAR RESOURCES GLOSSARY

LOHAS: WHAT IS IT?

LOHAS is an acronym for Lifestyles of Health and Sustainability, a market segment focused on health and fitness, the environment, personal development, sustainable living, and social justice.

Changing our footprint on the environment

LOHAS companies practice "responsible capitalism" by providing goods and services using economic and environmentally sustainable business practices. LOHAS business owners and industry leaders from around the world meet each year at the LOHAS Conference to discuss industry trends, share ideas and learn how to run a successful LOHAS business.

LOHAS consumers, sometimes referred to as Lohasians, are interested in products covering a range of market sectors and sub-sectors, including: Green building supplies, socially responsible investing and "green stocks", alternative healthcare, organic clothing and food, personal development media, yoga and other fitness products, eco-tourism and more.

TODAY: Wednesday March 12, 2008

Featured Story: As Green Building Matures, Business Opportunities Abound

Nowhere is the need for environmental stewardship more critical than in the building industry. U.S. buildings consume approximately 65 percent of the nation's electricity demand, 30 to 40 percent of wood products, and 25 percent of total water consumption.

Welcome to the Tour Operators' Initiative

"We are committed to developing, operating and marketing tourism in a sustainable manner; that is, all forms of tourism which make a positive contribution to the natural and cultural environment, which generate benefits for the host communities, and which do not put at risk the future livelihood of local people" (Article 1.3 of the Statement of Commitment).
